

ICD Section V District 9 (Israel and Malta) held their 2021 Induction Ceremony on Jul. 9, in Herzliya, Israel honoring our six new Fellows.

Due to the limitations of the world pandemic crisis, the induction ceremony was unable to accommodate our colleagues from Malta but for those who could attend the event was very special. Thirty Israeli fellows and their spouses participated in honoring the new inductees.

The organizing committee included Dr. Dov Sydney, Vice President of Section V, Professor Ephraim Winocur, Regent of District 9 and Dr. Pessia Friedman-Rubin, Vice Regent of District V.

The participants were greeted via video messaging by Professor Gil Alves Alcoforado, President of Section V and the International President, Dr. Akira Senda.

The new Fellows are :

Dr. Michal Dekel-Steinkeller

Dr. Eran Dolev

Dr. Vladislav Dvoyris

Dr. Yossef Gleitman

Dr. Albert Mansour

Dr. Hagay Slutzky.

We wish the new Fellows a meaningful membership in the ICD and look forward to seeing all of them along with our friends from all of Europe in Porto 2022.
